

# NUS-CS5228-project

---

NUS-CS5228 project about rental predict of HDB.

access through link [Concyclics/NUS-CS5228-project](https://Concyclics/NUS-CS5228-project): [NUS-CS5228 project about rental predict of HDB \(github.com\)](https://Concyclics/NUS-CS5228-project).

- [./trials](#): the different preprocessing methods and hyperparameter searching results and logs, the final result is mostly contributed by trial7.
- [./plots](#): the plots and code for EDA and report.
- [./old](#): the attempts we have made.
- [./merge](#): the workshop of ensembling best predictions.
- [./reference](#): reference paper.
- [./detail.md](#): summary of our works in Chinese.
- [./code.ipynb](#): the final code of our project(some config will change in different cluster searching trials).
- [./report](#): the report.
